

8. Marking the bearings

- Wipe grease from the outer surface of the bearing with a paper towel.
- Position the bearing so that you can see two rows of balls. Like in the picture.
- Make a mark with a permanent marker on the outer surface of the bearing, in the middle above two rows of balls.
- Use the same procedure for the remaining two bearings.
- ① We will use these markings in the upcoming chapters to achieve the desired bearing orientation.
