

60. Nylon guide parts preparation

❗ It is recommended to wear **safety glasses** while cutting the nylon filament.

For the following steps, please prepare:

Black nylon filament 50 cm / 19.7 inch (1x)

The black nylon filament is included in the MK3S+ Fasteners & ELE package.

Using the pliers cut one end of the filament to create a tip.

Check the tip is similar to the third picture.
