

60. Nylon guide parts preparation

❗ It is recommended to wear **safety glasses** while cutting the nylon filament.

⬛ **For the following steps, please prepare:**

🟡 Black nylon filament 50 cm / 19.7 inch (1x)

❗ The black nylon filament is included in the MK3S+ Fasteners & ELE package.

🟢 Using the pliers cut one end of the filament to create a tip.

🟠 Check the tip is similar to the third picture.
